

Department of Natural Resources
Air and Land Protection Division
Monthly Air Pollution Control Program Summary Report
For All Regions - 11/1/2005 to 11/30/2005

Number of Complaints Received RE:

<i>Asbestos</i>	5
<i>Burning</i>	41
<i>Fugitive Dust</i>	14
<i>Odors</i>	75
<i>Particulate</i>	6
<i>Non-regulated</i>	0
<i>Toxics</i>	0
<i>Other</i>	11

Of the above, 12 complaints involved multiple emissions.

Total of Complaints Received:. 140

Number of Investigations of Complaints:

<i>Received during report period.</i>	107
<i>Received prior to report period.</i>	9

Total number of investigations completed: 116

Number of Sources:

<i>Non-Regulated.</i>	0
<i>In compliance with regulations.</i>	130
<i>In violation of regulations.</i>	10
<i>Referred to local air pollution agencies.</i>	0
<i>Referred to other DNR program.</i>	0
<i>Requiring follow-up surveillance.</i>	0

Number of formal notices of violation issued: 10

note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspectors would be made.

Dates Received or Inspected: 11/1/2005 **through** 11/30/2005

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
KCRO	11/1/2005	11/1/2005	DILLON'S SUPERMARKET	Pleasant Hill	Cass	Odors	Jim Ross/Public Works	THL	
Comments	The Water Protection Program commented that the situation is outside the authority of the department's regulations. Municipal codes are the primary authority in this circumstance. Therefore, from the Water Protection stand point, the matter will be referred to the city engineer of Pleasant Hill, Missouri.								
Comp. No.	KC10439	Comp. Info	The complainant states there are odors coming from the sanitary sewer line at the grocery store's sewer. Inadequate flow in sewage lines has resulted in septic conditions. The complainant states odors are worse early in the evening and area residents have complained to the city. The city is looking for any assistance the Department of Natural Resources can provide.						
KCRO	11/2/2005	10/25/2005	UNKNOWN	Hume	Bates	Burning	Jim Goodson	ANS	A2424
Comments	Ms. Adrienne Smith, an inspector with the Missouri Department of Natural Resources' Kansas City Regional Office (KCRO), states the department issued NOV's #A2424KC to the City of Hume, #A2425KC to Mr. Dean Connor, and #A2426KC to Ms. Ilene Riggers.								
Comp. No.	KC10430	Comp. Info	The complainant reports a house is being burned that has asbestos shingles. The complainant states the reported party may be the City of Hume and that this is the fourth house to be burned in two months. The Environmental Emergency Response contacted the City of Hume, Fire Protection Department who stated the City of Hume had burned the house earlier in the week and it was still smoldering. The Fire Protection Department stated there was no asbestos materials in the house.						
KCRO	11/2/2005	11/1/2005	DILLION'S SUPERMARKET	Pleasant Hill	Cass	Odors	Jim Ross/Public Works	RAV	
Comments	Mr. Richard Vani, an inspector from the department's KCRO, detected no odors at time of the investigation. The Water Protection Program (WPP) is investigating the wastewater issue. The WPP stated the situation is outside the authority of the department's regulations. The Municipal codes are the primary authority in this circumstance. Therefore, from the water pollution standpoint the matter will be referred to the City Engineer of Pleasant Hill, Missouri.								
Comp. No.	KC10448	Comp. Info	The complainant states odors are coming from the sanitary sewer line at the grocery store. The grocery store processes animal products and discharges grease and blood into the sanitary sewer. Inadequate flow in the sewage lines has resulted in septic conditions. The odors are worse early in the evening and area residents have complained to the city. The city is looking for any assistance the Department of Natural Resources can provide.						
KCRO	11/3/2005	11/2/2005	GEORGE OGOREK	Kingsville	Johnson	Burning	Cecilia Wagner and Matt Decker	ANS	
Comments	Ms. Smith issued Letter of Warning.								
Comp. No.	KC10438	Comp. Info	The complainant states horse manure is being burned. This has been going on for several months.						
KCRO	11/3/2005	11/3/2005	J.E. DUNN CONSTRUCTION	Independence	Jackson	Fugitive Dust	Sean Nye	ANS	
Comments	Ms. Smith observed no violation.								
Comp. No.	KC10435	Comp. Info	The complainant states that dust from the J.E. Dunn Construction site (MCI HOSP) is going onto property of apartment complex.

Dates Received or Inspected: 11/1/2005 **through** 11/30/2005

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
KCRO	11/4/2005	11/4/2005	DWAYNE DUNCAN	Warsaw	Benton	Burning	Chris Phillips	MRM	
Comments	Mr. Michael Miller, an inspector with the department's KCRO, investigated the open burning of construction waste. Mr. Miller will issue a Letter of Warning to reported party, Mr. Dwayne Duncan.								
Comp. No.	KC10458	Comp. Info	The complainant reports the burning of waste, probably construction waste.						
KCRO	11/7/2005	11/2/2005	OMNIUN	St. Joseph	Buchanan	Odors	Mr. Billy McPherson	RAV	A2401
Comments	Mr. Vani issued Notice of Excess Emissions #A2401KC for excess odors.								
Comp. No.	KC10447	Comp. Info	The complainant states there were bad odors from the OMNIUN Plant in St. Joseph, Missouri.						
KCRO	11/17/2005	11/14/2005	UNKNOWN	Randolph	Clay	Odors	Darlene Snyder	RAV	
Comments	No odors detected at the time of the investigation.								
Comp. No.	KC10460	Comp. Info	The complainant states strong sulfuric acid odors just East of Ameristar Casino on 210 Highway.						
KCRO	11/21/2005	11/9/2005	DILLONS GROCERY STORE	Pleasant Green	Cass	Odors	Dennis Ross	RAV	
Comments	No odors detected during investigation								
Comp. No.	KC10461	Comp. Info	The complainant reports a severe sewer-like odor. This has been a problem for six years and has been worse the last six months. The complainant believes the source is a manhole in the back parking lot of a grocery store. The complainant has tenants 909-11 Sugarland Drive and 921 Southview Terrace that are adjacent to parking lot. The tenants are threatening to leave unless something is done about the odor. The complainant has registered the complaint to KCRO before. The City Engineer has issued nuisance notices to the grocery store.						
KCRO	11/28/2005	11/10/2005	JAMES D. SANDS	Archie	Cass	Burning	Kurt Huckshon	MC	A2461
Comments	Mr. Michael Cunningham, an inspector with the KCRO, discovered that approximately 200-300 tires were involved in an open burn at 34412 Southwest outer Road, in Archie, on November 10, 2005, and issued NOV #A2461KC.								
Comp. No.	KC10462	Comp. Info	Central Cass County Fire Protection District is responding to a brush fire involving about 200-300 tires in a drainage ditch.						
KCRO	11/28/2005	11/23/2005	APAC-LIMPUS	Independence	Jackson	Fugitive Dust	Loma Marlatt	ACB	
Comments	Fugitive dust was not detected beyond the APAC-Limpus property boundaries. No further action is needed.								
Comp. No.	KC10452	Comp. Info	The complainant states dust is leaving the APAC-Limpus crushing operation property boundaries and being deposited on the complainant's property, clothing, vehicles and getting into their house. The dust problem from APAC has been occurring all day. The complaint was taken at 1:10 p.m.

Dates Received or Inspected: 11/1/2005 **through** 11/30/2005

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
KCRO	11/29/2005	11/23/2005	LIQUID TRANSPORT/KTTR TANK C	Liberty	Clay	Odors	Vicky Keeton/Dept of Soc Serv	ANS	
Comments No odor violation at the time of inspection.									
Comp. No.	KC10453	Comp. Info	The complainant states there are odors, like industrial cleaning chemical, coming from a source directly behind their office complex. The odors are sporadic but tend to be detected in the early to mid morning time period. The odor problem has been occurring for several years. The complainant believes the odor is coming from the Kaw Transport and Tank Cleaning Company.						
KCRO	11/29/2005	11/22/2005	PAVE STONE	Lees Summit	Jackson	Fugitive Dust	Anonymous	MC	
Comments No further action necessary									
Comp. No.	KC10455	Comp. Info	The complainant reports dust at Pave Stone.						
KCRO	11/29/2005	11/29/2005	MARK EVINGER	Grain Valley	Jackson	Burning	Mark Johnson	MC	A2642
Comments Notice of Violation was issued #A2462KC for the open burning of vegetative waste with an undetermined amount of fence posts, wire fencing, tires, and railroad ties.									
Comp. No.	KC10463	Comp. Info	The complainant reports the open burning of brush and miscellaneous refuse at 230 East Old 40 Highway in Grain Valley.						
KCRO	11/30/2005	11/14/2005	HPI	St. Joseph	Buchanan	Odors	Jeff Richter	MRM	A2399
Comments Mr. Miller detected odor at 1:7 dilutions 20 minutes apart and issued NOV #A2399KC.									
Comp. No.	KC10454	Comp. Info	The complainant states bad sulfur odors from HPI occurred all day Monday, November 14, 2005.						
KCRO	11/30/2005	11/18/2005	HUNT-MARTIN MARIETTA QUARRY	Peculiar	Cass	Fugitive Dust	John Brockelman	MRM	
Comments Mr. Miller reports no off-premise fugitive dust since the complaint. Mr. Miller is unable to investigate but will investigate when fugitive dust occurs.									
Comp. No.	KC10468	Comp. Info	The complainant states fugitive dust is coming onto their property from the quarry during blasting. The complainant noted large chunks of rock six inches by six inches landing in the woods on their property. The complainant has notice this since the quarry expanded to North in 1997. The complainant owns 420 acres North.						
KCRO	11/30/2005	11/30/2005	JESSIE STONE	Rushville	Buchanan	Burning	Neil Gore	MRM	A2441
Comments Mr. Miller issued NOV A2441KC for an unintentional large tire fire, occasional intentional burning of tires, storing hundreds of tires. Please refer to solid waste.									
Comp. No.	KC10459	Comp. Info	The complainant states that burning of tires taking place on the property of the reported party. The burning of tires usually takes place at 3:00 p.m. The most recent burning took place at 3:00 a.m. on November 29, 2005. The complainant stated that he contacted the Buchanan County Sheriff's office and reported the burning incident to the dispatcher. The complainant estimated that a minimum of 75 to 100 tires are hauled in on a two ton farm truck several times a week. Burning has occurred several times in the last two to three weeks.

KCRO	11/30/2005	11/4/2005	FORD MOTOR COMPAMY	Claycomo	Clay	Odors	Larry Kump	MRM	
Comments Mr. Miller detected no odor and advised the complainant to contact the department if it returns.									
Comp. No.	KC10456	Comp. Info	The complainant reports a strong odor that has been bad all week. The odor was really strong the day of the complaint especially at 2:30 p.m. with the winds from the south. The complainant has called before about the same odor.						
KCRO	12/1/2005	11/30/2005	HOLT COUNTY MAINTENANCE BA	Oregon	Holt	Burning	Anonymous	ANS	
Comments No treated wood being burned. No violation.									
Comp. No.	KC10466	Comp. Info	The complainant states that local businesses are burning treated wood bridge planks in a wood burning stove to heat their building.						
KCRO	12/6/2005	11/28/2005	ORCHARD ESTATED DEVELOPME	St. Joseph	Andrew	Burning/Open Dumps	Gary Korneman	ANS	A2427
Comments Notice of Violation #A2427KC issued for open burning.									
Comp. No.	KC10474	Comp. Info	The complainant states that a contractor is hauling trade waste from a local industry, American Walnut, to a large ditch or pit and dumping the walnut boards. Additional trade and demolition waste is dumped and either burned or buried on site. The dumping has been an ongoing problem for the past two months. The contractor, Wynes Excavating, is doing the dumping, burning and excavating. The excavating has resulted in heavy silt deposits into a drainage ditch on County Road 378. Stormwater runoff with the silt is also going onto the complainant's property and into his pond.						
KCRO	12/6/2005	11/30/2005	RILEY TIRE COMPANY	Oregon	Holt	Burning	Anonymous	ANS	
Comments No treated wood being burned. No violation									
Comp. No.	KC10465	Comp. Info	The complainant states that local businesses are burning treated wood bridge planks in a wood burning stove to heat their building.						
NERO		11/28/2005	THOMAS MCCORMACK	Jefferson City	Cole	Burning	Anna Luellen	BJ	
Comments									
Comp. No.	NE12011	Comp. Info	The complainant states the reported party, the owner of the trailer, had stripped the interior contents from the trailer and then set it on fire. The fire department allowed the trailer to burn due to its proximity to a nearby creek. The discovery date was October 25, 2005.						
NERO		11/30/2005	DAVID NELSON	Brookfield	Linn	Asbestos	Anonymous	MIH	
Comments									
Comp. No.	NE12006	Comp. Info	The complainant states the reported party is demolishing a commercial building that was previously the Brown Shoe Company in Brookfield at 101 Sanford Street, and has not conducted an asbestos inspection prior to demolition. Another commercial building on West Helm Street in Brookfield owned by another reported party is being demolished and was not inspected for asbestos prior to demolition.

Dates Received or Inspected: 11/1/2005 **through** 11/30/2005

Region	Inspection Date	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
NERO	11/23/2005	MEFFORD	Clarence	Shelby	Burning	Anonymous	MIH	
Comments								
Comp. No.	NE11999	Comp. Info The complainant states the reported party moved into a new trailer on First Street and placed it behind an older house. The bank required the older house to be removed from the property. The reported party tore down the old house and has started burning the debris in small piles daily for the past three weeks.						
NERO	11/29/2005	WESTPHALIA VOLUNTEER FIRE D	Westphalia	Osage	Asbestos	Paul Jeffery	MIH	
Comments								
Comp. No.	NE11998	Comp. Info A former bar in Westphalia is being torn down. No equipment or people were onsite last Friday. The department's Air Pollution Control Program has not received a demolition notification so it is unlikely an asbestos inspection was done. The building is being torn down to make way for a new volunteer fire station.						
NERO	11/23/2005	BRAD WOOLDRIDGE	Boonville	Cooper	Asbestos	Betty Kenney	SMB	
Comments Mr. Boone, an inspector with the department's NERO, spoke with Mr. Glen Bishop, with the City of Boonville, on November 23, 2005. Mr. Bishop has been to the property and observed a couple pieces of slate siding. Mr. Bishop was not aware of a specific location of the waste on the property. Mr. Bishop stated the contractor is bringing waste concrete from sidewalks that are being renovated in town to this lot. Mr. Bishop stated that the contractor is Mr. Marvin Grice. Mr. Boone spoke with Mr. Brad Wooldridge about the situation. Mr. Wooldridge stated that his father, Mr. Paul Wooldridge, had all the asbestos removed from the building, about ten years ago, after being in trouble with the department for not removing it. They spent \$25,000 in asbestos abatement on the building and the brick was removed. Mr. Wooldridge stated that they are leasing the property site to someone for another development to use as a parking lot. The area that has been filled is on the west side of the property and the east side is where the pile of waste is allegedly located. Mr. Boone agreed to go by and check for the presence of asbestos when we are in the area next. Do a file review and check with Mr. Paul Vitzthum or Mr. Walt Shull about their investigation.								
Comp. No.	NE11994	Comp. Info The complainant reports asbestos is buried just beneath the surface in an empty lot in Boonville that is being filled in today with concrete and broken asphalt by the Marvin Grice Construction Company. The complainant is concerned that the asbestos will be covered and then will wash into the drain into her building next door. Mr. Glen Bishop, with the City of Boonville (City), was contacted and has gone out to the property but will not do anything. The City has a conflict of interest because the lot where the trash is located is going to be a parking lot for a motel the City is helping to sponsor. The complainant is not certain who is the owner of the property. It was owned by Mr. Paul Wooldridge's heirs until recently. It may be owned by the motel builders. The mound is six feet by eight feet by four and half feet tall in size and is located about 14 feet from the complainant's basement driveway.						
NERO	11/1/2005	11/1/2005 PSF GREEN HILLS	Green City	Sullivan	Odors	Larry Guffey	SMB	
Comments No on-site investigation made in response to this report due to the quickly changing variation in odors from changes in weather conditions and because of the one to two day advance notice required by the laboratory prior to analysis of air samples. An investigation will be scheduled during the next on-site investigation of this facility.								
Comp. No.	NE11958	Comp. Info At 6:32 p.m. on October 31, 2005, the following report of odors from PSF Green Hills was filed. "There is a very strong hog odor this evening and the air is calm."

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
NERO	11/1/2005	11/1/2005	PSF WHITETAIL	Unionville	Putnam	Odors	Jack Parrish	SMB	
Comments No on-site investigation made in response to this report due to the quickly changing variation in odors from changes in weather conditions and because of the one to two day advance notice required by the laboratory prior to analysis of air samples. An investigation will be scheduled during the next on-site investigation of this facility.									
Comp. No. NE11952 Comp. Info On November 1, 2005, at 8:30 a.m., the complainant reported odors from PSF Whitetail. The odors have been pretty strong at his place this morning since 7:10 a.m. The odor caused his nose to start burning. The complainant also stated that he and his wife have been having sinus problems that they attribute to the activities from PSF. The complainant stated that both of them had fewer symptoms when they were out of the area for a couple of days recently. When they returned, their sinuses began acting up again. The complainant went on to state that they have noted odors less frequently recently. The complainant stated that PSF is currently doing land application by injection into the ground on cropland, which is an improvement over spraying it with a toolbar on the surface of the ground.									
NERO	11/2/2005	11/2/2005	PSF GREEN HILLS	Green City	Sullivan	Odors	Larry Guffey	SMB	
Comments No on-site investigation made in response to this report due to the quickly changing variation in odors from changes in weather conditions and because of the one to two day advance notice required by the laboratory prior to analysis of air samples. An investigation will be scheduled during the next on-site investigation of this facility.									
Comp. No. NE11959 Comp. Info At 8:25 p.m. on November 2, 2005, the complainant reported odors from PSF Green Hills as follows. "We had a mild odor again this evening."									
NERO	11/7/2005	11/7/2005	PSF WHITETAIL FINISH SITE	Unionville	Putnam	Odors	Melody Torrey	SMB	
Comments No on-site investigation made in response to this report due to the quickly changing variation in odors from changes in weather conditions and because of the one to two day advance notice required by the laboratory prior to analysis of air samples. An investigation will be scheduled during the next on-site investigation of this facility.									
Comp. No. NE11971 Comp. Info The complainant filed the following reports of odors from PSF Whitetail. "November 4, 2005, Fred, Leta, and Melody Torrey filed an odor complaint. The odor moved in approximately 4:00 p.m. and grew worse as the evening progressed. The wind was light out of the East. November 5, 2005, Fred, Leta, and Melody Torrey filed an odor complaint. The odor was still present the following morning and it was a strong hog manure odor. The wind was out of the East then switched to the Northeast later in the day."									
NERO	11/8/2005	11/7/2005	PSF VALLEY VIEW FINISH SITE	Green City	Sullivan	Odors	Silvia Christen	SMB	
Comments No on-site investigation made in response to this report due to the quickly changing variation in odors from changes in weather conditions and because of the one to two day advance notice required by the laboratory prior to analysis of air samples. An investigation will be scheduled during the next on-site investigation of this facility.									
Comp. No. NE11979 Comp. Info On November 7, 2005, the following reports of odors from PSF ValleyView were filed. "The odor started approximately at 5:55 p.m. and got really strong at 6:10 p.m."

Those statements of allegations do not necessarily reflect the legal standard upon which inspectors would be made.

Dates Received or Inspected: 11/1/2005 **through** 11/30/2005

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
NERO	11/8/2005	11/8/2005	PSF WHITETAIL FINISH SITE	Unionville	Putnam	Odors	Melody Torrey	SMB	
Comments	No on-site investigation made in response to this report due to the quickly changing variation in odors from changes in weather conditions and because of the one to two day advance notice required by the laboratory prior to analysis of air samples. An investigation will be scheduled during the next on-site investigation of this facility.								
Comp. No.	NE11977	Comp. Info	On November 7, 2005, the complainant reports the following two reports of odor from PSF Whitetail. "Fred, Leta, and Melody Torrey states the odor moved in late afternoon to early evening and at this time it is a strong hog manure odor. As the complainant drove by the site this morning a strong gassy/lagoon odor was coming off their factory farm. The complainant first noticed the odors at the front gate of the PSF site while going East and the odor grew stronger past the junctions of Highway Y and YY and North on Highway 129. The odor made it very difficult to breath and burned my eyes and nose."						
NERO	11/8/2005	11/4/2005	NEIGHBOR WHO LIVES IN CUL DE	Wardsville	Cole	Burning	Anonymous	SMB	
Comments	Mr. Boone visited the street where the burning occurred and observed a track loader, or high lift, at the third lot on the left on Deer Haven Court. Mr. Boone contacted Mr. Randy Bruns, with Bruns Excavating, telephone number (573) 782-3777, Russellville, Missouri. Mr. Bruns stated the neighbor at the end of the cul de sac on Deer Haven Court was conducting some burning of leaves and that you could still see some evidence of the burning. Mr. Boone explained to Mr. Bruns that brush from land clearing cannot be burned when the burning is going to take place less than 200 yards from the nearest house. Mr. Bruns said that he was not aware of these restrictions. The neighbor who conducted the burning of leaves did it at a time when the leaves were damp and caused a lot of smoke. The smoke was blowing towards the neighbors up the hill from the lot. Exempt burning of leaves and small branches. No violation of the Missouri Open Burning Restrictions.								
Comp. No.	NE11965	Comp. Info	The reported party is clearing brush and burning it 75 feet from the complainant's home. The complainant stated he has spoken to the man and asked him to stop burning so close to his house, but the man continued to burn.						
NERO	11/8/2005	11/4/2005	APAC ROCKY FORK ASPHALT PLA	Columbia	Boone	Odors/Other	Joseph and Debra Bowes	SMB	
Comments	On November 4, 2005, Mr. Boone referred the blasting issue to the Land Reclamation Program. The complainant will also contact the Land Reclamation Program. Mr. Boone conducted an on-site investigation on November 8, 2005, and did not detect any odors. There is no asphalt plant located upwind from the complainant's house. The asphalt plant at the Boone Quarries property has been closed for several years. The nearest asphalt plant is the APAC Rocky Fork plant, which is approximately two miles Northeast of the complainant's property. There was no wind from that direction at the time the odors were noticed. The wind was blowing from the South to Southeast direction during the early morning of November 4, 2005. The unusual weather conditions combined with topographic factors may have resulted in odors at the complainant's house. Mr. Boone spoke with Mr. Brett Geger, with APAC, about the report. Mr. Geger stated they have been working during the evenings because it is stipulated in their contracts with the Missouri Department of Transportation because of traffic. Mr. Geger is not aware of any asphalt laying activity that might be taking place downwind from the complainant's house. Mr. Geger stated that APAC has a scentometer and monitors for odors. No violation of the odor regulation found during the on-site investigation. Mr. Boone informed the complainant of the results of the investigation. The complainant stated she will contact us if the odors are noted again.								
Comp. No.	NE11960	Comp. Info	The complainant reports heavy blasting taking place during last two weeks at Boone Quarries. The complainant also reports that the odors from the APAC Asphalt Plant have been very strong lately. The odors from the hot asphalt are so strong they give you a headache. The odors are present this morning. Normally, the odors are experienced during the evenings and early mornings until 9:00 a.m. or 10:00 a.m. The complainant is concerned that the emissions from the plant are excessive and that they were not supposed to be impacting neighbors in this way when the permit was issued. The complainant is curious as to why "releases" usually take place at night.

An investigation will be scheduled during the next on-site investigation of this facility.								
Comp. No.	NE11978	Comp. Info	On November 8, 2005, the complainant reports the following two reports of odor from PSF Whitetail. "Fred, Leta, and Melody filed an odor complaint. The odor was still present the following morning and it still smelled like pure hog manure. The odor was so strong later in the morning Fred had to shut up due to the odor."						
NERO	11/14/2005	11/14/2005	PSF VALLEY VIEW FINISH SITE	Green City	Sullivan	Odors	Silvia Christen	SMB	
Comments	No on-site investigation made in response to this report due to the quickly changing variation in odors from changes in weather conditions and because of the one to two day advance notice required by the laboratory prior to analysis of air samples. An investigation will be scheduled during the next on-site investigation of this facility.								
Comp. No.	NE11982	Comp. Info	On November 10, 2005, the complainant reported odors from PSF Valleyview. "Mr. Walter Hannah reported strong odor at his house at 5:45 p.m. this evening and with a light south wind."						
NERO	11/15/2005	11/15/2005	PSF WHITETAIL FINISH SITE	Unionville	Putnam	Odors	Melody Torrey	SMB	
Comments	No on-site investigation made in response to this report due to the quickly changing variation in odors from changes in weather conditions and because of the one to two day advance notice required by the laboratory prior to analysis of air samples. An investigation will be scheduled during the next on-site investigation of this facility.								
Comp. No.	NE11984	Comp. Info	On November 14, 2005, the complainant filed the following two reports of odors from PSF Whitetail. "Fred, Leta, and Melody Torrey stated the odor had moved in early this morning and stayed the entire day and into the night. The odor is a strong hog manure smell and the wind is out of the East. On November 10 and 11, 2005, the complainant encountered strong gassy/lagoon odors coming from PSF."						
NERO	11/17/2005	11/17/2005	MICHAEL & GENE STEED/ BILL HE	Hunnewell	Shelby	Burning	Fire Chief Gene Harland	MIH	
Comments	Ms. Hopke, an inspector with the department's NERO, went to the property but could not make contact with anyone but did observe a large pile of demolition waste. There was a hole dug on the North end of the demolition waste and demolition waste was being burned. Ms. Hopke took photographs from County Road #375. On November 18, 2005, Ms. Hopke returned to the property and made contact with Mr. Bill Hepperman. Mr. Hepperman informed Ms. Hopke his father-in-law, Mr. Michael Steed, owned the property. Mr. Hepperman informed Ms. Hopke the old farmhouse was in the process of falling down and they tore it down for safety reasons but did not know the waste could not be burned. Ms. Hopke asked Mr. Hepperman to stop burning the demolition waste and to arrange for proper disposal at a sanitary landfill. On November 21, 2005, Mr. Michael Steed contacted the NERO and asked for the name of the landfill located west of Macon and for a telephone number. Ms. Hopke gave Mr. Steed the name and telephone number for Onyx Waste Services. The department issued a Letter of Warning for violations of the Missouri Solid Waste Management Law and the Open Burning Restrictions.								
Comp. No.	NE11992	Comp. Info	The complainant reports a house was demolished earlier in the week. Since that time the reported party has dug a hole next to the home. Chief Harland noticed today the reported party has pushed some of the demolition waste into the hole and started burning it.

NERO	11/17/2005	11/10/2005	FRED ZIEHMER	California	Moniteau	Burning	Dana Cook	SMB	
Comments	Mr. Boone conducted an on-site visit and observed from the street where burning has been taking place south of the house on the property. No one was home at the time of the investigation. Mr. Boone could see tree branches and firewood piled near two burn barrels on the property. On November 18, 2005, Mr. Boone contacted Mr. Tom Ziehmer by telephone and discussed the open burning regulations. Mr. Ziehmer informed Mr. Boone he takes the brush from his business to a compost area provided by the city of California. Mr. Ziehmer stated that most of the work he does is fencing. Mr. Ziehmer informed the inspector that none of the brush and tree branches that were observed were from his business. He said that it was not even on his property, but was on his Dad's property. Mr. Boone checked with the City of California and they do have an area for residents to take brush and limbs so it can be ground up. The department will send a letter informing fencing contractor of open burning regulations along with technical bulletins on open burning.								
Comp. No.	NE11980	Comp. Info	It is reported that a landscaper is conducting open burning of trade waste in California, Missouri. The reported party apparently hauls trash from his business to his home and burns it.						
NERO	11/18/2005	11/18/2005	CLARENCE BUCHANAN	Louisiana	Pike	Burning	Dorothy Penrod	MIH	
Comments	Ms Hopke met with Mr. Buchanan at Carback's Recycling and inspected the property. Mr. Buchanan informed Ms. Hopke they had been burning household trash prior to her arrival. Mr. Buchanan denied any other waste had been burned earlier. Ms. Hopke did not observe any open burning at the time of the investigation and did not observe an area exhibiting evidence of open burning. Ms. Hopke went over the Open Burning Restrictions with Mr. Buchanan and reminded Mr. Buchanan that no open burning of trade waste could be done and that salvaging of metals could not be done by open burning. No violations observed during the investigation.								
Comp. No.	NE11990	Comp. Info	The complainant reports Bucky Buchanan's Salvage yard is giving off billowing black smoke.						
NERO	11/21/2005	11/15/2005	ROBERT STARBUCK	Hale	Carroll	Burning	Shaun Crockett	SMB	
Comments	Mr. Steve Boone, conducted an on-site visit and no one was at the property. Mr. Boone contacted Mr. Roy Fisher at his home at 726 First Street in Carrollton. Mr. Fisher informed Mr. Boone, Mr. Robert Starbuck had rented and then trashed the property. Mr. Fisher stated early last summer, he had spoken with Mr. Starbuck and asked him to clean up the property. Mr. Boone asked for and received permission to go out and look at the property. A check with the Carrollton Police found no current address in Carrollton for Mr. Starbuck. Mr. Boone made a visit to the property and found about 1000 tires in six locations in the area around the farmstead. Mr. Boone also found evidence that about 20 to 25 tires were burned on the property and evidence that copper wire had been burned. Mr. Starbuck could not be contacted at his residence in Brookfield. Mr. Boone contacted Mr. Brad Richards, with the Hale Fire Department, and obtained a copy of the fire incident report. Mr. Boone spoke with Mr. Starbuck on November 23, 2005, by telephone. Mr. Boone asked Mr. Starbuck about the burning of tires and Mr. Starbuck stated that he had not wanted the fire department to put out the fire because he was burning the tires to salvage the rims. Mr. Starbuck informed Mr. Boone that he had been told that it was legal to burn tires in the country. Mr. Starbuck stated that he was working with two other people. The regional office issued a Notice of Violation for open burning and required the tires be removed and properly disposed of within 90 days. Mr. Boone mailed technical bulletin on tires and a copy of waste tire hauler list.								
Comp. No.	NE11986	Comp. Info	The Hale Fire Department responded to a call of a tire fire in a pasture Southwest of Hale.

Comments	Ms. Hopke went to the Baker property and observed an area where a mobile home had been parked and discovered a ditch on the north end of the property where burn residue remained. Ms. Hopke could not locate anyone at the Baker residence. On November 28, 2005, Ms. Hopke made contact with Mrs. Baker by telephone. Mrs. Baker informed Ms. Hopke they did burn some of the demolition waste from the trailer but the remainder of the burn debris and demolition waste was hauled to Onyx Landfill in Bevier. Mrs. Baker informed Ms. Hopke they hauled metals to Ellison Salvage in Clarence, who did not pay them for the metal. Mrs. Baker stated the city had told them they could burn the waste. Ms. Hopke informed Mrs. Baker a Letter of Warning would be issued for violations of the Open Burning Restrictions and the Missouri Solid Waste Management Law.								
Comp. No.	NE11991	Comp. Info	The complainant states a mobile home was demolished and burned on the property in Clarence on Friday, November 18, 2005, late in the afternoon. When reported party saw neighbors taking photographs of their activity, the remaining demolition waste from the mobile home was loaded onto a truck. On Sunday, November 20, 2005, the truck of waste left the property.

Comments Ms. Jan Chronister, an inspector from the SERO, reported the City of Malden was demolishing and burning a building. The contents of the building is owned by the city. Mr. Danny Grant, from the City Code Enforcement Office (CEO), was the reported party at the site. The fire department Chief and Engineer along with several city employees were at the site watching the burning occur. Ms. Chronister, upon arrival and providing identification, requested the fire be extinguished. The fire department was hesitant until Ms. Chronister explained the open burning regulation and the Solid Waste requirements. A copy of the Solid Waste Management Law and Open Burning Regulations was provided to Mr. Grant, CEO, and the Fire Department Chief. Notice of Violation (NOV) #3192SE was issued to the City of Malden and to Mr. Grant, CEO, for the open burning and the illegal disposal of waste. After further investigation, NOV #3206 was issued for violating the asbestos regulations. After an asbestos inspection is completed, a copy of the landfill receipts must be sent to the regional office to Mr. Glen Gearhart.									
Comp. No.	SE5859	Comp. Info	The complainant reports the City of Malden is tearing down a building and burning the demolition waste in the neighborhood. The smoke is covering the complainant's house.

SERO	11/28/2005	10/28/2005	UNKNOWN	Van Buren	Carter	Burning	Anonymous	GAG	
Comments	Mr. Glen Gearhart located no one at the residence across the street. On November 29, 2005, a lady at the residence stated that a Mr. John and Mr. Red Decker (Mr. Decker) were the ones who were cleaning up the property. The lady gave Mr. Gearhart the telephone number of Mr. Decker's mother. Photographs were taken from the road right-of-way. Mr. Gearhart observed several piles of burned debris as well as steel belts. From the road right-of-way it appeared that only a few waste tires had been burned. On November 30, 2005, Mr. Gearhart contacted Mr. Decker's mother and she gave the inspector Mr. Decker's cellular telephone number. Mr. Gearhart contacted Mr. Decker and he admitted burning two/three tires and other trash. Mr. Gearhart informed Mr. Decker about the burning regulations and that an Illegal Disposal Investigation Report would be issued for cleanup of the small amount of remaining waste, an estimated five cubic yards or less. It appeared that Mr. Decker hung up on the inspector at that point. When Mr. Gearhart tried to contact Mr. Decker again he got a busy signal. Mr. Gearhart contacted Mr. Decker again and left a voicemail message on the second try. The property is reportedly owned by a Mr. Walter Gibson who lives in Holts Summit. There is no telephone number listed. Mr. Gearhart issued an Illegal Disposal Investigation Report #4342 with 30 days to remove and properly dispose of the remaining waste tire and solid waste debris.								
Comp. No.	SE5843	Comp. Info	The complainant states the reported party is burning tires. The complainant has asked them to stop but they keep doing it.

Comments	Mr. Shull contacted the greens keeper for the country club and explained the complaint and reason for the investigation. The greens keeper denied burning any paint buckets, tires, or other trade wastes and escorted Mr. Shull to two areas where materials were burned occasionally. One area was for tree limbs, tree trunks, and other vegetative materials on the golf course. The other area was a hog-wire fence enclosure where leaves that are vacuumed from the golf course are placed and periodically burned. None of the alleged items in the complaint was observed at either site. The facility has a large roll-off dumpster near the parking lot where other than vegetative waste is placed. The open burning regulation was discussed with emphasis placed on the prohibition of burning business or trade waste. The facility was provided a copy of the regulation 10 CSR 10-3.030, Open Burning Restrictions for future reference. The country club is approximately two miles east of Rolla municipality limits and more than 200 yards from any occupied residences. No open burning violations observed.								
Comp. No.	SE5950	Comp. Info	The complainant states the reported party is burning tires, paint, fertilizer containers, etc. The reported party is using a waste pond that runs off into nearby creek.						
SERO	12/6/2005	11/23/2005	SHANNON LOWE	Salem	Dent	Burning	Leona Walker	WS	
Comments	The facility was burning scrap wood wastes in a trench at the time of the investigation. The new owner was not present but the receptionist stated that the facility changed owners from son to father and was renamed to Certified Future Forest Products about October 1, 2005. The facility processes about 70,000 to 100,000 board-feet per day. The open burning wood processor exemption for facilities less than 8000 board-feet does not apply, and therefore, the facility is in violation of 10 CSR 10-3.030 Open Burning Restrictions for burning business and trade wastes. The facility was provided a copy of the Departments Open Burning Fact Sheet and a copy of the regulation 10 CSR 10-3.030. All open burning must stop immediately, and other procedures must be initiated to dispose of wood wastes. Sawdust from the sawing operations is ducted/blown from the building directly to the atmosphere and onto outside sawdust piles, with a strong potential for opacity to exceed 20 percent and for fugitive dust to leave the premises of origin in violation of regulations 10 CSR 10-6.220 and 10 CSR 10-6.170. Mr. Shull recommends the facility contact a consultant for possible remedies or contact the department's Environmental Assistance Office for recommendations.								
Comp. No.	SE5937	Comp. Info	The complainant states the sawmill is actively burning wastes on the premises.

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
SERO	12/12/2005	11/18/2005	QC CORPORATION	Scott City	Cape Girarde	Fugitive Dust/Particulate	John Wipfler	AW	
Comments	Mr. Wampler did not find any evidence of emissions on investigation. Mr. Tom Kiser, the plant manager, informed Mr. Wampler he would contact the plant operators to see if they had problems, but he was not aware of any problems. Some dust, orange like in color, was emitted in the past on a previous complaint.. Mr. Kiser stated he would speak with complainant if he would make contact or come by. The facility produces mainly ferrous sulphate. No violation noted on investigation date.								
Comp. No.	SE5927	Comp. Info	The complainant states the reported party is emitting some kind of substance, maybe metal, into the air.						
SLRO	11/8/2005	11/7/2005	FRED WEBER - SOUTH ASPHALT	St. Louis	St. Louis	Odors	BARBARA REHLING (BRAM)	PJD	
Comments	Mr. Patrick Dwyer, an inspector with the Missouri Department of Natural Resources, will conduct additional surveillance when in the area and when additional complaints are received as time and workload permits.								
Comp. No.	SL032318	Comp. Info	The complainant reports an objectionable odor from the asphalt plant. The complainant states an awful asphalt smell permeated her pickup truck with the windows closed. The odor was so bad it made her sick to her stomach. The odor was also present at the top of the hill, of Old Baumgartner Road, at the entrance to Wind Rose Estates, north of the plant. The complainant notified Mr. Kevin Regan, with Fred Weber Inc., of the smell and complaint at 11:30 a.m. on Monday, November 7, 2005.

Dates Received or Inspected: 11/1/2005 **through** 11/30/2005

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
SLRO	11/16/2005	11/16/2005	UNKNOWN	House Springs	Jefferson	Burning	ANONYMOUS	KJA	
Comments	Mr. Arnold was unable to validate the complaint. No further action needed at this time.								
Comp. No.	SL032306	Comp. Info	The complainant indicated an unknown source is burning an unspecified material that is producing visible smoke. The complainant was concerned that high winds may spread the fire. The complaint was made through a voice mail message. The location of the problem is just off of Highway 30 and Highway W, near House Springs.						
SLRO	11/17/2005	11/8/2005	APPLIED FOOD BIOTECHNOLOGY	O'Fallon	St. Charles	Odors	KAREN HOFF (HENRY)	PJD	
Comments	Mr. Patrick Dwyer spoke to Mr. Keith Boatright, with Applied Food Biotechnology, on November 29, 2005, from 3:05 p.m. until 3:20 p.m. Mr. Boatright stated they keep spill reports and daily audit checks but those did not indicate any problems on the November 8, 2005. Mr. Boatright informed the inspector he would check operations for further possibilities. Mr. Boatright stated Ms. Sue Zaruos did file a complaint on September 2, 2005, but the complaint was resolved. Mr. Boatright stated two new silos have been added but did not elaborate on additional possible expansion activities. Mr. Boatright did state they might add another dryer with scrubber venting directly to the atmosphere at a later date. Mr. Dwyer suggested Mr. Boatright contact Mr. Chris Nagel, with the department's Enforcement Section, at (573) 751-4817 prior to the construction. When notified about the new house on Manderly Place, Mr. Boatright indicated they would be proactive in trying to foster good relations with the new neighbors. On November 30, 2005, Mr. Boatright contacted the SLRO to say the operation supervisor noted no odor in his log book for November 8, 2005, but he did notice that a tote was sitting on the front pad without a lid and the lid was later placed on the tote. No further action at this time but will continue surveillance.								
Comp. No.	SL032322	Comp. Info	The complainant states the odor is strong like chicken rendering or decaying chicken.						
SLRO	11/21/2005	11/21/2005	FRED WEBER, INC. - SOUTH ASPH	St. Louis	St. Louis	Odors	BILL MITCHELL	PJD	
Comments	Complaint will be put in file. On-site investigations will be performed in response to future complaints when time and workload permits.

SLRO	11/21/2005	11/21/2005	FRED WEBER, INC. - SOUTH ASPH	St. Louis	St. Louis	Odors	ANONYMOUS	PJD	
Comments	The complaint will be put in the file. On-site investigations will be performed in response to future complaints when the time or workload permits.								
Comp. No.	SL032317	Comp. Info	The complainant reports an objectionable odor from the asphalt plant. The complainant states the strong odors like diesel fuel and asphalt were noticed while the back door to the house was open. The odors were first noticed at approximately 7:30 a.m. and continued until 9:30 a.m. Sometimes the odor will be present inside the home with the doors closed. Some days the problem is so bad there is a blue fog in the area. The complainant did not want to give his name or address for the fear that "Fred Weber's goons" would be sitting out in front of his house. Pat, with Fred Weber, was notified of the odor complaint at 9:30 on November 21, 2005.						
SLRO	11/30/2005	11/22/2005	BOBBY BASS (FAST LANETOWING	Foley	Lincoln	Burning	ANONYMOUS	KJA	
Comments	Mrs. Bass was informed of the Department of Natural Resources' Air Pollution Control Program enforcement procedures regarding open burning of prohibited items. Mr. Bass is encouraged to cease all open burning of prohibited items. No further action needed unless additional complaints are received.								
Comp. No.	SL032315	Comp. Info	The complainant alleges the reported party is or has been burning tires.

SWRO	11/1/2005	10/28/2005	PETIT JEAN	Buffalo	Dallas	Odors	Bill Sprague	GLE	
Comments Ms. Darlene Swanson stated that for approximately two weeks there was no odor but now the odor is back. Mr. Jerry Hardesty, the Mayor of Buffalo, has received sporadic complaints over a five to six week period. Mr. Hardesty has investigated a number of the complaints and has never detected an odor. Mr. Hardesty has toured the facility with Mr. Frank Sanderson, the manager, and saw the new equipment that had been installed. Mr. Sanderson showed Ms. Glennis Evans, the inspector, the two six inch pipes and the two four inch pipes coming out of the tank and going into a re-dox mixture. Mr. Sanderson now has four charcoal canisters on site that are being used. Mr. Bob Hostetler will be spraying and sealing the new top with a Conklin coating that will completely seal the lid. Petit Jean is installing a new sludge tank and the TRS will be coming every three days. There was a slight odor present when the doors to the Waste Water Treatment building was open. When the doors were closed no odor was detected.									
Comp. No.	SW7628	Comp. Info	The complainant reports a decaying carcass odor last night at 6:30 p.m. The complainant states the odor has not stopped since the new equipment was installed.

Dates Received or Inspected: 11/1/2005 **through** 11/30/2005

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
SWRO	11/9/2005	11/8/2005	MISSOURI PARTNERS, INC.	Hollister	Taney	Particulate/Burning	Karen Doyle	DL	
Comments	Missouri Partners was developing the old Gauge Resort/Motel Complex into condominiums. Several piles of trees and brush were observed that were in the last stages of being burned. Mostly large piles of ashes were observed with only a small amount of tree limbs and/or tree trunks that were smoldering. The wind was blowing from the Northwest to the Southeast at approximately 15 miles per hour. On the day the complaint was filed, the wind was blowing from the South to the Northeast in the direction of the complainant's property. According to Mr. Dan Leyland's conversation with Mr. Tom Roberes, dozer operator of Missouri Partners Inc., there were no tires or any other substance used other diesel fuel to start the fires and/or keep them burning. No violation.								
Comp. No.	SW7674	Comp. Info	The complainant states smoke from the burning of brush is causing black particles to fall from the sky onto the complainant's property. The complainant believes something other than wood is being burned

Dates Received or Inspected: 12/1/2005 **through** 12/31/2005

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
KCRO	12/1/2005	11/30/2005	HOLT COUNTY MAINTENANCE BA	Oregon	Holt	Burning	Anonymous	ANS	
Comments	Ms. Adrienne Smith, an inspector with the Missouri Department of Natural Resources' Kansas City Regional Office (KCRO), did not observe any burning of treated wood. At this time no further action is necessary.								
Comp. No.	KC10466	Comp. Info	The complainant states local businesses are burning treated wood bridge planks in a wood burning stove to heat their building.						
KCRO	12/5/2005	12/5/2005	TONY TRANERY	Platte City	Jackson	Burning	Keith Martin	MRM	
Comments	At the time of the investigation, Mr. Michael Miller, an inspector with the KCRO, noticed smoke in the neighborhood due to wind and the improper operating of an air curtain destructor. Mr. Miller advised the reported party to replace the pit to the northeast approximately 150 feet and to not operate when winds are from north.								
Comp. No.	KC10464	Comp. Info	Over the weekend of December 3, 2005, the complainant reported smoke from an air curtain destructor was affecting neighbors to the South. The wind was from the North.						
KCRO	12/6/2005	12/5/2005	PATRICK SCHUTT	Kingsville	Johnson	Burning	Phil Edmondson	ACB	A2486
Comments	Mr. Aaron Bleibaum, an inspector with the KCRO, observed burning of trade waste on the reported party's property. The saw dust generated by the mill of oak logs used in the manufacturing of log homes is considered trade waste. The open burning of such untreated wood waste is not permissible with out a burn permit. Mr. Bleibaum issued a Notice of Violation (NOV) for open burning without a permit.								
Comp. No.	KC10473	Comp. Info	The complainant states the reported party installed a sawmill for the production of log homes (the siding and flooring materials). On the evening of December 4, 2005, the reported party burned sawdust the reported party's wooded property caught on fire. The local fire department responded to the fire. The reported party's burn pile is approximately 100 feet from the complainant's property.						
KCRO	12/6/2005	11/28/2005	ORCHARD ESTATES DEVELOPME	St. Joseph	Andrew	Burning/Open Dumps	Gary Korneman	ANS	A2427
Comments	Ms. Smith issued NOV #A2427KC for open burning.								
Comp. No.	KC10474	Comp. Info	The complainant states the reported party is hauling trade waste from a local industry (American Walnut) to a large ditch/pit and dumping the walnut boards. The reported party hired a contractor who dumps additional trade and demolition waste and either burns or buries it on site. The dumping has been an ongoing problem for the previous two months. The contractor (Wynes Excavating) is doing the dumping, burning and excavating. The excavating has resulted in heavy silt deposits into a drainage ditch off County Road 378. Storm water runoff with the silt is also going onto the complainant's property and into his pond.						
KCRO	12/6/2005	11/30/2005	RILEY TIRE COMPANY	Oregon	Holt	Burning	Anonymous	ANS	
Comments	Ms. Smith did not observe any burning of treated wood. At this time no further action is necessary.								
Comp. No.	KC10465	Comp. Info	The complainant states local businesses are burning treated wood bridge planks in a wood burning stove to heat their building.

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
KCRO	12/12/2005	12/5/2005	FALCO'S EAST TRUCK PARTS OF I	Independence	Jackson	Burning	Gene Gould/Cent.Jackson Co.FPD	MC	A2463
Comments Mr. Michael Cunningham, an inspector with the KCRO, reviewed the reports from the Central Jackson County Fire Protection District and spoke with Mr. Falco (the reported party). Mr. Cunningham then determined open burning of vegetative and plastic refuse occurred on December 2, 2005, at 10:30 p.m., and on December 4, 2005, at 3:40 p.m. Mr. Cunningham issued NOV #A2463KC for the violation.									
Comp. No. KC10480 Comp. Info The complainant states the reported party has been burning chipped wood along with plastic and rubber waste. On December 2, and 4, 2005, the Central Jackson County Fire Protection District responded to this location. The complainant included a copy of the fire department's incident report from those dates.									
KCRO	12/15/2005	12/8/2005	JOHN BAILEY	Rushville	Buchanan	Burning/Open Dumps	Neil Gore	ACB	
Comments Mr. Bleibaum did not detect any air violations, but referred the waste issue to the department's Solid Waste Management Program.									
Comp. No. KC10479 Comp. Info The complainant states the reported party is burning tires and has a river of appliances (water heaters, bags, jugs, garbage). The complainant believes the waste is washing out near Lewis and Clark State Lake.									
KCRO	12/20/2005	12/16/2005	UNKNOWN	Blairstown	Henry	Burning	Anonymous	ANS	
Comments Ms. Smith did not observe a violation at the time of the investigation. Ms. Smith sent an informational letter to Mr. Larry Atkinson, of the local fire department.									
Comp. No. KC10477 Comp. Info The complainant reports a person is burning copper wire to remove the insulation. The complainant also stated the reported party is burning tires, with wheels, in order to obtain the metal for recycling. The complainant then stated they have contacted the local police a number of times, but the police department did not take any action.									
KCRO	12/20/2005	12/20/2005	TYSON FOODS	Sedalia	Pettis	Odors	Ralph Randall	ACB	
Comments Mr. Bleibaum did not detect any violations.									
Comp. No. KC10478 Comp. Info The complainant reports a strong odor is coming from the Tyson plant in Sedalia, Missouri.									
KCRO	12/20/2005	12/12/2005	TYSON FOODS (HEADQUARTERS)	Sedalia	Pettis	Odors	Jim Wilson	ACB	
Comments Mr. Bleibaum did not detect excessive odors.									
Comp. No. KC10493 Comp. Info The department received the following complainant information via e-mail from Mr. Caleb Hunt of Tyson. Mr. Hunt stated Mr. Wilson contacted Mr. Caleb via e-mail at approximately 2:00 p.m. concerning an odor complaint. The complainant stated the wind was blowing from the Southeast. Mr. Hunt stated RVAF had a scrubber pump and fan off. The waste water treatment plant had applied sludge on Field 8. Please see the e-mail for details of the complaint.

Dates Received or Inspected: 12/1/2005 **through** 12/31/2005

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
KCRO	1/4/2006	12/30/2005	D. J. KROUSE	Excelsior Springs	Ray	Burning	Lisa Keller	RAV	
Comments	Mr. Richard Vani, an inspector with the KCRO, states the owner was not on site and saw no evidence of open burning. Mr. Vani will issue a letter of warning.								
Comp. No.	KC10495	Comp. Info	The complainant states her neighbor is burning trade waste and demolition waste hauled onto his property at 705 Cherokee Drive, Excelsior Springs, MO 64024. The reported party is burning rubber, tires, stripped insulation, siding, furniture, mattresses, etc. The burning usually happens twice a week by means of a large bonfire.						
KCRO	1/4/2006	12/28/2005	HAMILTON METHODIST CHURCH/T	Hamilton	Caldwell	Burning	Anonymous	ANS	
Comments	Ms. Smith informed Mr. Sloan the house would need to be demolished and then all debris would need to be demolished and then taken to land fill, not burned or buried. Ms. Smith also mailed Mr. Sloan a fact sheet on demolitions and open burning.								
Comp. No.	KC10494	Comp. Info	The complainant states a person with the Hamilton Fire Department told him that the Hamilton Methodist Church had bought a house next door to the church. The church plans to demolish the house and burn it or bury it on site. The complainant states that the house has asbestos siding. The church has not done anything at this time.						
NERO		12/19/2005	RICHARD BELL	Chillicothe	Livingston	Asbestos	Anonymous	MIH	
Comments	On December 19, 2005, Ms. Mary Hopke, an inspector with the department's Northeast Regional Office (NERO), did not find an asbestos inspection or notification in the files. Ms. Hopke contacted Mr. Bell and informed him of the options for beneficial reuse of concrete, block and brick as clean fill. Ms. Hopke also informed Mr. Bell it would be in his best interest to leave the remaining demolition debris at the site of the former photography studio so an asbestos inspection can be performed on this material. Ms. Hopke told Mr. Bell another NERO inspector, Mr. Steve Boone, would further discuss the asbestos concern and requirements with him.								
Comp. No.	NE12047	Comp. Info	The complainant reports a property owner is demolishing three houses in Chillicothe. Two of them are currently demolished. The owner is doing the demolition himself. The waste is not being taken to the transfer station and the buildings are being hauled away in straight trucks, which the complainant believes this implies they are not going very far. The complainant also states brick and wood are being mixed together, which they believe indicates the reported party is not concerned about the weight of the material. The complainant's concern is the waste is not being disposed of at a permitted landfill. The complainant also mentioned the center house had previously been a photography studio and should have been inspected for asbestos and a notification made to the department.						
NERO		12/22/2005	UNKNOWN	Columbia	Boone	Asbestos/Burning	Bruce Stuart	MIH	
Comments									
Comp. No.	NE12050	Comp. Info	On December 17, 2005, at 12:35 p.m., an off duty fire officer observed heavy black smoke while driving home. The officer investigated and determined several greenhouses were being demolished and burned. Some of the materials burning appeared to be fiberglass and/or otherwise not appropriate for burning and a heavy black smoke was resulting. An unnamed person at the scene told the fire official no illegal materials were being burned. The local Fire Protection Department did not respond to extinguish. All evidence of burning may be gone by the time of an investigation.

NERO		12/30/2005	BILL BOWEN & CITY OF BROWNING	Browning	Linn	Asbestos	Deputy Butch Eskew	MIH	
Comments									
Comp. No.	NE12062	Comp. Info	Deputy Eskew reported Mr. Bill Bowen is going to demolish a commercial building just West of the City Hall in Browning and does not believe the building has been inspected for asbestos. The city has told Mr. Bowen to haul the painted brick to a creek near the city park for disposal.						
NERO		12/30/2005	CITY OF HANNIBAL DRINKING WATER	Hannibal	Marion	Toxics	Anonymous	DJM	
Comments The Hannibal-Courier Post article that ran in Thursday's edition was routed to the staff at the NERO.									
Comp. No.	NE12064	Comp. Info	The complainant reports a release of chlorine gas occurred at the Hannibal water plant at approximately 6:30 a.m. on Wednesday, December 28, 2005. A water plant employee was changing tanks and the regulator failed. The gas was released for an unknown amount of time and it is unknown to the complainant the amount of gas released. The complainant stated this happened in the fall of 2004 and does not believe the city reported the release. The complainant stated the Hannibal Hazardous Material team refused to go in and stop the release and two other city employees went in after the release stopped on its own and shut the valve.

Comp. No.	NE12067	Comp. Info	The complainant states at 1:30 p.m. and again at 3:00 p.m. on Wednesday, December 28, 2005, a "typical packing plant smell" was coming from the PSF Packing Plant in Milan. The complainant stated the winds were from the North and the odors were so strong it was still noticeable with windows shut in the vehicle. The odors were described as a "very intense packing plant smell." The odors were detected at the Sinclair station at the junction of Business Highway 5 and Highway 5 and 6 in Milan.

Comp. No.	NE12017	Comp. Info	On December 5, 2005, the complainant filed the following two reports of odors from PSF Whitetail, "The odor was still here the following morning and it still smelled like pure hog manure. I tried working outside that morning but soon went back in due to the odor. The wind was out of the East." The second complaint is as follows, "As I drove by the site this afternoon then again this evening I encountered strong gassy/lagoon odors coming off their factory farm. The odors made it difficult to breath and burned my eyes and nose."						
NERO	12/6/2005	11/28/2005	THOMAS MCCORMACK	Jefferson City	Cole	Burning	Anna Luellen	BJ	
Comments	Mr. John Briney, an inspector with the NERO, conducted an on-site visit. No one was at the property at the time of the visit. Mr. Briney spoke with a neighbor who was working in a nearby pasture. The neighbor did not think Mr. McCormack is the owner of the property, but he could not recall the name of the actual property owner. The neighbor did recall the trailer being burned and thought a deputy with the local police department reported the fire to the local fire department. Mr. Briney then drove to Mr. McCormack's current residence (2504 Southridge Drive, Apartment B in Jefferson City) to speak with him. Mr. McCormack informed Mr. Briney he is the owner of the trailer. Mr. McCormack stated he had tore off the metal siding and scrapped it. He then burned the rest of the trailer. Mr. McCormack also stated the only thing remaining at the site from the trailer is the metal frame, and the waste currently at the site is not from his trailer. Mr. McCormack stated he did not realize it is illegal to burn the waste from the trailer. Mr. Briney sent a letter of warning to Mr. McCormack for open burning along with technical bulletins on open burning and demolition waste. Mr. Briney also sent technical bulletins on open burning and demolition waste to Mr. And Mrs. Stockton (property owners of 5724 Propst Road, Jefferson City, MO 65109).								
Comp. No.	NE12011	Comp. Info	On October 25, 2005, the complainant discovered the reported party burning a trailer. The complainant states Mr. Thomas McCormack, owner of the trailer, stripped the interior contents from the trailer and set it on fire. The local fire department allowed the trailer to burn due to its proximity to a nearby creek.

Comments	Mr. Paul Jeffery, of the department's Air Pollution Control Program (APCP), referred this complaint to OSHA for investigation of indoor air quality requirements. OSHA's investigation found no evidence of burning being conducted inside at the time of the investigation. The inspection did find there had been several small barrels used to burn scrap lumber. The plant foremen told OSHA inspectors there had been some burning inside during a cold weather period, but the plant manager had stopped the burning when he found out about it. The report states some burning was allowed outside, in the dock area. The department referred the issue to OSHA for enforcement of their requirements. An air pollution compliance inspection will be conducted later and the issue of burning will be addressed at that time.								
Comp. No.	NE12013	Comp. Info	The complainant states the reported party is burning chemically treated lumber in seven separate steel drums inside the reported party's building. The smoke from the fires are making employees sick and the reported party will not stop burning the lumber.

Dates Received or Inspected: 12/1/2005 **through** 12/31/2005

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
NERO	12/13/2005	11/30/2005	DAVID NELSON	Brookfield	Linn	Asbestos	Anonymous	MIH	0966N
Comments	Ms. Hopke went to the factory building located at corner of Sanford & Helm Street but could not locate anyone on site. Ms. Hopke was unable to locate the commercial building on West Helm Street. Ms. Hopke then went to the city hall to seek location information. City hall staff told Ms. Hopke to talk with Mr. Rod Stufflebean with the city. Mr. Stufflebean told Ms. Hopke the building is on the corner of West Helm and Main Street and that Mr. Thomas worked for Mr. Nelson. Mr. Stufflebean contacted Mr. Thomas and asked him to come to the city hall. Mr. Thomas informed Ms. Hopke they were removing trash out of the shoe factory and had not yet started the demolition. Ms. Hopke asked Mr. Thomas what type of trash is being removed and Mr. Thomas stated mostly ceiling tiles. Ms. Hopke explained to Mr. Thomas the ceiling tiles could contain asbestos and asked him to stop working on the building until an asbestos inspection is done. Mr. Thomas stated he would make contact with Mr. Nelson and let him know. Ms. Hopke then asked Mr. Thomas if he is demolishing a commercial building on the corner of Main and Helm. Mr. Thomas stated he is remodeling it and an asbestos inspection had not been done on the building before he started working on it. Ms. Hopke informed Mr. Thomas he would need the inspection done before resuming work on the building and Mr. Thomas agreed. On December 16, 2005, Mr. Jim Linville, of Trenton, contacted Ms. Hopke and stated he had conducted asbestos inspections on both the Nelson and Thomas buildings. No asbestos was found in the building on Main Street belonging to Mr. Thomas, but samples were collected. Samples were also collected from the shoe factory building belonging to Mr. Nelson. On December 20, 2005, Mr. Nelson told Ms. Hopke he was not demolishing the building, but he had moved scrap lumber into the building from another location and allowed workers to remove nails from the lumber. On December 30, 2005, Mr. Linville contacted the department and stated he received the results from the asbestos inspections on both buildings. There was no asbestos found in the Thomas building but asbestos is present in the linoleum, floor tiles and roofing of the Nelson building. Mr. Linville sent the report to Mr. Jeffrey. Ms. Hopke issued a Letter of Warning to Mr. Thomas for renovation without an asbestos inspection and failure to notify the department. Ms. Hopke issued a NOV to Mr. Nelson for demolition without an asbestos inspection and failure to notify the department of a demolition.								
Comp. No.	NE12006	Comp. Info	The complainant reports Mr. David Nelson is demolishing a commercial building (previously the Brown Shoe Company in Brookfield at 101 Sanford Street) and Mr. Nelson did not conduct an asbestos inspection prior to demolition. The complainant also reports another commercial building (located on West Helm Street in Brookfield), owned by Mr. Danny Thomas, is being demolished and Mr. Thomas did not inspect for asbestos prior to demolition.

NERO	12/16/2005	12/16/2005	UNION HILL BAPTIST CHURCH/RO	Holts Summit	Callaway	Asbestos	Anonymous	MGS	0662-
Comments Mr. Michael Sudholt, an inspector with the NERO, stated the APCP staff referred the freon concern to the U.S. Environmental Protection Agency, Region VII. Mr. Sudholt contacted Mr. Todd by telephone and asked if an asbestos inspection had been completed on the building. Mr. Todd stated an asbestos inspection had not been completed, but the City of Holts Summit removed the gas and electric lines and told Mr. Todd no regulations applied to the building demolition since it was in Holts Summit. Mr. Todd also stated everything had previously been completely renovated approximately 25 years ago. Mr. Sudholt informed Mr. Todd an asbestos inspection was needed and recommended all demolition immediately cease until an inspection and notification be completed. Mr. Sudholt arranged to have someone meet with him on Monday. On December 19, 2005, Mr. Sudholt met with Mr. Todd, the demolition contractor, the Reverend L.P. Cook of Union Hill Baptist Church, and Mr. Doug Schrimpf, contractor for construction of the new church, and member of the church building committee. They informed Mr. Sudholt they only removed the windows. When Mr. Sudholt inspected the old church he found they had pulled up carpeting over 9"x9" tiles in two rooms and on a staircase. They had also removed a folding ladder to the attic of the church. Mr. Todd informed Mr. Sudholt that Deacon Larry Walker had an inspection done on the building, but no one could find the inspection report. Mr. Walker was not available. The Union Hill Baptist Church authorized Mr. Todd and Mr. Mahan to commence demolition of the old church building without having the building inspected and without submitting a notification of demolition or renovation.									
Comp. No. NE12040 Comp. Info The complainant reports a church located in Holts Summit (on Holts Summit Drive) is being demolished. The complainant states there are shingles, most likely containing asbestos, that will be hauled off to either a dump or local property. Freon lines are being cut with the freon emitting into the air. Mr. Ronnie Todd is the person allegedly tearing down the church. The complainant also states Mr. Steve Jackson is the one cutting the freon lines. The complainant observed Mr. Jackson cutting the freon lines.

Comments No on-site investigation made in response to this report due to the quickly changing variation in odors from changes in weather conditions and because of the one to two day advance notice required by the lab prior to analysis of air samples. An investigation will be scheduled during the next on-site investigation of this facility.									
Comp. No. NE12072 Comp. Info On December 19, 2005, the complainant reported odors from PSF Whitetail as follows, "As I drove by the site this morning then again this afternoon I encountered strong gassy/lagoon odors coming off their factory farm. The odors made it difficult to breath burned my eyes and nose."									
NERO	12/22/2005	12/12/2005	TRE-CON PALLET	Higbee	Randolph	Burning	Anonymous	JAB2	
Comments Mr. Joseph Bowdish, an inspector with the NERO, met with Mr. Bill Trenaga at his pallet facility (the Internet lists Mr. Bill Trenaga, 1027 Private Road 2523, Higbee, MO, 660-456-7719). Mr. Trenaga stated he had not burned any pallets recently because someone informed him it is illegal. Mr. Trenaga also stated he sometimes cuts scrap wood into small pieces to burn in his wood burner. Mr. Bowdish informed Mr. Trenaga this was not a problem. Mr. Bowdish explained the regulations for wood processing facilities to Mr. Trenaga, and based on the amount of wood produced by his facility and its location, open burning of untreated wood materials would not put Mr. Trenaga in violation of the state Open Burning regulations. On December 27, 2005, Mr. Bowdish contacted Mr. Trenaga by telephone and discussed rules for the definition of a wood processor. Mr. Trenaga conducts most of his business by collecting used pallets from businesses and reselling them. Mr. Trenaga also does minor pallet repairs and cuts lumber for those repairs. Mr. Trenaga explained that process is not a large part of his business. Most of the pallets are ready to go when he receives them. For disposal, Mr. Trenaga very seldom has much waste. He stated he occasionally has a recreational fire, he burns some pallets in a wood stove, and also gives away waste pallets for others to burn or use for stacking hay. Mr. Bowdish did not find any violations at the time of the investigation. Mr. Bowdish provided Mr. Trenaga with a copy of the Missouri Open Burning regulations and the department's open burning fact sheet. Mr. Bowdish sent a letter stating open burning regulations pertaining to wood processing facilities and the requirements for Mr. Trenaga to dispose of the pallet waste at his business.									
Comp. No. NE12051 Comp. Info The complainant states the reported party, owned by Mr. Bill Trenaga, burns scrap pallets at his pallet making factory down by Higbee.

note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspectors would be made.

Dates Received or Inspected: 12/1/2005 **through** 12/31/2005

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
SERO		12/28/2005	UNKNOWN	Perryville	Perry	Other	Ms. Linda Rellergert		
Comments									
Comp. No.	SE6043	Comp. Info	The complainant reports a musty, moldy, chemical odor coming from around TG-MO. The complainant has asthma problems and stated the odor aggravates her condition. The complainant stated she has noted the odor since middle of July but has not noticed the odor this week.						
SERO		12/30/2005	UNKNOWN	Perkins	Scott	Other	Anonymous		
Comments									
Comp. No.	SE6025	Comp. Info	The complainant alleges the reported party is burning a house. The complainant does not know who is burning the house, but believes the owner is Mr. James Graviett.						
SERO		12/20/2005	UNKNOWN	Perryville	Perry	Other	Anonymous		
Comments									
Comp. No.	SE6045	Comp. Info	The complainant reports an odor in Perryville. The complainant has lived in Perryville for eight years and has never had a problem before now. The odor is strong enough to taste. There was no odor for six days around the Thanksgiving holiday.						
SERO		12/20/2005	UNKNOWN	Perryville	Perry	Other	Ms. Laura Bucheit		
Comments									
Comp. No.	SE6046	Comp. Info	The complainant reports a very bad odor in the neighborhood that has been present for the last four months. The complainant states the odor is like a shoe polish odor and is present all hours of the day. The odor is strong and gives her a headache.						
SERO		12/30/2005	UNKNOWN	Perryville	Perry	Other	Anonymous		
Comments									
Comp. No.	SE6049	Comp. Info	The complainant reports an odor in Perryville that occurred on December 29, 2005, and caused the complainant to have a headache. The odor was foreign to him and was like nothing experienced in farming. It is a pungent chemical odor.						
SERO		12/20/2005	UNKNOWN	Perryville	Perry	Other	Ms. Harriet Beline		
Comments									
Comp. No.	SE6047	Comp. Info	On November 22, November 29, and on December 5, 2005, at 10:00 a.m., the complainant noticed an odor. The odor was a very strong chemical odor. The complainant stated she is very surprised nothing has been done about the odor before now.

Dates Received or Inspected: 12/1/2005 <i>through</i> 12/31/2005								
Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials NOV
SERO		12/20/2005	UNKNOWN	Perryville	Perry	Other	Ms. Mary Chappius	
Comments								
Comp. No.	SE6048	Comp. Info	The complainant states the odor is noted mostly in the mornings. The complainant started noticing the odor the first week of August in the middle of town and on Highway 61 at the ambulance service, near the hospital. The complainant states the odor is strong, like a mold or mildew but more distinct.					
SERO		12/22/2005	UNKNOWN	Perryville	Perry	Animal Waste	Anonymous	
Comments								
Comp. No.	SE6044	Comp. Info	The complainant has noticed a chemical odor for a couple of months in Perryville.					
SERO		12/15/2005	PROFESSIONAL WASH SYSTEMS	Poplar Bluff	Butler	Other	Anonymous	
Comments								
Comp. No.	SE5979	Comp. Info	The complainant states the reported party has been repeatedly burning plastic, wood pallets and construction debris. The evidence looks like a house has been torn down. The reported party has been burning debris bi-weekly for the past several months.					
SERO		12/14/2005	JOSH GURNEY	Zalma	Bollinger	Other	Anonymous	
Comments								
Comp. No.	SE5977	Comp. Info	The complainant states the reported party is burning an old trailer and other trash. The smoke has a horrible smell making it hard to breathe. The complainant thought it was a one time burn but the reported party has hauled in other items and has been burning all week.					
SERO		12/27/2005	JOHN DAWSON SAWMILL	Ellsinore	Carter	Fugitive Dust	Anonymous	
Comments								
Comp. No.	SE6019	Comp. Info	An anonymous complainant stated fine sawdust has been flying everywhere, making it hard to breathe. The fine layer of sawdust covers yards and vehicles. The department sent an inspector to the site in September and told the reported party to stop, but he did not stop.					
SERO		12/13/2005	CONNIE GUINARD & MIKE GUINAR		Perry	Other	Brian McCain	
Comments								
Comp. No.	SE5989	Comp. Info	The complainant stated the reported party burned a 14' x 60' trailer as a means of disposal.

Comments									
Comp. No.	SE6008	Comp. Info The complainant states there have been several reports of large columns of black smoke coming from burn piles. After the piles burn out, whatever is leftover is usually buried.							
SERO	12/1/2005	11/30/2005	DON STRICKLIN	Cherryville	Crawford	Burning	Rodney Martin	AW	
Comments Mr. Albert Wampler, an inspector with the department's Southeast Regional Office (SERO), went to the location of the mobile home demolition. Mr. Wampler spoke with Mr. Don Strickland. Mr. Wampler did not observe any burning on the investigation date. Mr. Wampler then drove to an area where mobile homes were torn apart. Mr. Wampler did not observe any burn areas, but did see a lot of plastic wood and remnants of "trailers," aluminum mobile home tops, etc. Mr. Strickland stated he previously burned the trailers and was penalized by the department. Mr. Strickland informed Mr. Wampler he had a dumpster arriving on December 2, 2005. Mr. Wampler did not observe any violations, any burn areas, or any ongoing burning on the investigation date. Mr. Strickland does burn the wood from the demolition in his shop heater. Mr. Strickland stated had been told by another department employee it would be okay to do so. Mr. Wampler informed Mr. Strickland he currently has a suspended penalty, which may be requested if burning occurred.									
Comp. No.	SE5948	Comp. Info The complainant states the reported party is open burning trade waste from a mobile home the reported party is dismantling. The complainant believes the department previously issued two NOV's to the reported party for the same activity.							
SERO	12/2/2005	11/21/2005	UNKNOWN	Potosi	Washington	Burning	Laura Williams	GAG	
Comments Mr. Glen Gearhart, an inspector with the SERO, found the mailbox for 10348 Puckett, but did not know which home it was. No one was home at two of the residences. Mr. Gearhart called the complainant and left a message. He left another message on December 5, 2005, but has not received a reply. No further action until more information is obtained.									
Comp. No.	SE5926	Comp. Info The complainant states a neighbor is burning tires.							
SERO	12/6/2005	12/6/2005	BURGESS CONSTRUCTION COMP	Desloge	St. Francois	Other	Anonymous	GAG	
Comments Mr. Gearhart investigated the complaint and found the allegations were not correct. Mr. Phil Meyer, asbestos inspector, faxed a copy of the inspection report to Mr. Gearhart. The inspection report stated the asbestos inspector found no regulated amount of asbestos. Mr. Pete Pope, the Code Enforcement Officer at Park Hills, investigated the site and observed the reported party dumped only clean fill. Mr. Alan Aubuchon, with the transfer station near Farmington, stated the reported party brought 18 loads (totaling approximately 24 tons) to the facility as of 2:00 p.m. on December 9, 2005. Mr. Richard Macke, Desloge Code Enforcement Officer, stated to his knowledge, the reported party committed no violations. No further action necessary.									
Comp. No.	SE5970	Comp. Info The complainant states the reported party demolished a Pizza Hut Restaurant at Desloge. The complainant alleges the reported party did not obtain an asbestos inspection and the building is full of asbestos.

Dates Received or Inspected: 12/1/2005 **through** 12/31/2005

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
SERO	12/6/2005	12/6/2005	BURGESS EXCAVATION	Farmington	St. Francois	Other	Anonymous	GAG	
Comments	Mr. Gearhart investigated the complaint and found the allegations were not correct. Mr. Phil Meyer, asbestos inspector, faxed a copy of the inspection report to Mr. Gearhart. The inspection report stated the asbestos inspector found no regulated amount of asbestos. Mr. Pete Pope, the Code Enforcement Officer at Park Hills, investigated the site and observed the reported party dumped only clean fill. Mr. Alan Aubuchon, with the transfer station near Farmington, stated the reported party brought 18 loads (totaling approximately 24 tons) to the facility as of 2:00 p.m. on December 9, 2005. Mr. Richard Macke, Desloge Code Enforcement Officer, stated to his knowledge, the reported party committed no violations. No further action necessary.								
Comp. No.	SE5965	Comp. Info	The complainant states the reported party demolished a Pizza Hut Restaurant at Desloge. The complainant alleges the reported party did not obtain an asbestos inspection and the building is full of asbestos.						
SERO	12/6/2005	11/30/2005	OAK MEADOW COUNTRY CLUB	Rolla	Phelps	Burning	brocklong@gmail.com	WS	
Comments	Mr. Walt Shull, an inspector with the SERO, contacted the greens keeper for the country club and explained the complaint and reason for the investigation. The greens keeper denied burning any paint buckets, tires, or other trade waste and escorted Mr. Shull to two areas where materials are burned occasionally. One of the areas was for tree limbs, tree trunks, and other vegetative materials on the golf course. The other area was a hog-wire fence enclosure where the keeper places leaves vacuumed from the golf course and periodically burned. Mr. Shull did not observe any of the alleged items in the complaint at either site. The facility has a large roll-off dumpster near the parking lot where anything other than vegetative waste is placed. Mr. Shull and the greens keeper discussed the open burning regulation with emphasis placed on the prohibition of burning business or trade waste. For future reference, Mr. Shull provided the facility with a copy of the state regulation 10 CSR 10-3.030, Open Burning Restrictions. The facility is approximately two miles East of the Rolla municipality limits and more than 200 yards from any occupied residences. Mr. Shull did not observe any open burning violations.								
Comp. No.	SE5950	Comp. Info	The complainant states the reported party is burning tires, paint, fertilizer containers, etc. Also, the reported party is using a waste pond and the waste pond runs off into a nearby creek.						
SERO	12/6/2005	11/23/2005	SHANNON LOWE, CERTIFIED FUT	Salem	Dent	Burning	Leona Walker	WS	
Comments	At the time of the investigation, Mr. Shull observed the facility burning scrap wood waste in a trench. The new owner was not present but the receptionist stated the facility changed owners from son to father and then renamed Certified Future Forest Products on approximately October 1, 2005. The facility processes approximately 70,000 to 100,000 board-feet per day. The open burning wood processor exemption for facilities less than 8000 board-feet does not apply, and therefore, the facility is in violation of 10 CSR 10-3.030 Open Burning Restrictions for burning business/trade wastes. The facility was provided a copy of the department's Open Burning Fact Sheet and a copy of the state regulation 10 CSR 10-3.030. All open burning must stop immediately, and other procedures must be initiated to dispose of wood wastes. Sawdust from sawing operations is ducted/blown from the building directly to the atmosphere and onto outside sawdust piles, with a strong potential for opacity to exceed 20% and for fugitive dust to leave the premises of origin in violation of regulations 10 CSR 10-6.220 and 10 CSR 10-6.170. Mr. Shull recommended the facility contact a consultant for possible remedies or contact the department's Environmental Assistance Office for recommendations.								
Comp. No.	SE5937	Comp. Info	The complainant states a sawmill is actively burning wastes on the premises.						
SERO	12/6/2005	11/22/2005	BRAD GREER PEST CONTROL	Grayridge	Stoddard	Burning	Stoddard County Emergency Mgmt	JC	3211S
Comments	Please see the report from Mr. Bill Pippins, Jr., Director, Stoddard County Emergency Management Agency. Ms. Jan Chronister, an inspector with the SERO, issued NOV #3211SE.								
Comp. No.	SE6004	Comp. Info	The complainant reports burning of a structure owned by Brad Greer Pest Control.						

Department of Natural Resources
Air and Land Protection Division
Monthly Air Pollution Control Program Detail Report

note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspectors would be made.

Dates Received or Inspected: 12/1/2005 **through** 12/31/2005

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
SERO	12/7/2005	12/2/2005	JERRY LOWE, CERTIFIED FUTURE	Salem	Dent	Burning	Charlie Walker	WS	
Comments	Mr. Shull observed the facility burning scrap waste in a trench at the time of the investigation. The facility processes approximately 70,000 to 100,000 board-feet per day. The open burning wood processor exemption for facilities less than 8000 board-feet does not apply, and therefore, the facility is in violation of 10 CSR 10-3.030 Open Burning Restrictions, for burning trade/business wastes. Mr. Shull provided the facility with a copy of the department's Open Burning Fact Sheet and a copy of the state regulation 10 CSR 10-3.030. Mr. Shull informed the facility all open burning must stop immediately. He also recommended the facility contact a consultant for possible remedies or contact the department's Environmental Assistance and Outreach Program for recommendations.								
Comp. No.	SE5954	Comp. Info	The complainant reports the reported party has repeatedly been burning lumber or something for several days. Thick smoke is covering the highway and making it difficult to drive.						
SERO	12/7/2005	12/5/2005	LARRY MUNGLES	Perryville	Perry	Other	Ronald Ray	AW	3016S
Comments	Mr. Wampler observed the burn pile on the lot approximately 90-100 feet East of Highway 51 South (an abandoned restaurant is across road). The is one residential home across the road (West) approximately 150 feet from the burn area. There is one home Northeast of the burn pile approximately 220 yards. Mr. Wampler observed two workers splitting wood at the time of the investigation. If Mr. Mungle moved the burn pile to the back of his property, he would be at least 200 yards from all homes. Mr. Wampler noted a permit may be issued if Mr. Mungle obtains the required distance. At the time of the investigation, Mr. Mungle is in violation of failing to obtain a burn permit for burning by a commercial facility and not obtaining a 200 yard buffer.								
Comp. No.	SE5957	Comp. Info	The complainant reports the reported party cuts firewood and burns the debris. This has been going on all summer and fall. The smoke is over the whole valley. The reported party does not have a permit.						
SERO	12/12/2005	11/18/2005	QC CORPORATION	Scott City	Cape Girarde	Fugitive Dust/Particulate	John Wipfler	AW	
Comments	Mr. Wampler did not observe evidence of emissions on investigation date. The plant manager, Mr. Tom Kiser, stated he would contact the operators to see if they had problems, but was not aware of any. In the past, the facility did emit some dust on a previous complaint. Usually "orange like" in color. Mr. Kiser stated he would speak with the complainant if he would call or come by. The facility mainly produces ferrous sulfate.								
Comp. No.	SE5927	Comp. Info	The reported party is emitting a substance into the air (suspects the substance to be metal).						
SERO	12/16/2005	12/14/2005	MARK PIERCE SAWMILL	Bismarck	St. Francois	Fugitive Dust/Particulate	Kathryn & James Howard	AW	
Comments	Mr. Wampler spoke to Mr. Mark Pierce, the owner, and noted there was no burning being conducted on site at the time of the investigation. Mr. Pierce has a small two/three man operation that has been operating approximately two years. The company saws less than 8,000 board feet. Mr. Pierce informed Mr. Wampler he burned in the past but was not going to continue to burn and would chip the remaining slabs. Mr. Wampler noticed a trailer on the property and Mr. Pierce stated it had been used to store the sawdust. Mr. Wampler requested Mr. Pierce continue to use the trailer to collect the sawdust or erect a barrier (or another system) to retain the dust on the property. If the sawdust was blown outside, on a windy day, the dust could conceivably reach the complainant's residence. Mr. Wampler did not write a violation, but he did try contacting Mr. Andy McFarland and left a message on Mr. McFarland's voice mail.								
Comp. No.	SE5975	Comp. Info	The complainant states the reported party is causing fugitive sawdust emissions.						

Department of Natural Resources
Air and Land Protection Division
Monthly Air Pollution Control Program Detail Report

note: "Comp. Info" refers to complainant information. This is the information the department receives from the complainant and seeks to accurately reflect the nature of the allegation as it was made. Those statements of allegations do not necessarily reflect the legal standard upon which inspectors would be made.

Dates Received or Inspected: 12/1/2005 **through** 12/31/2005

Region	Inspection Date	Date Received	Suspected Source Owner/Operator	City	County Name	Type of Complaint	Complainant	Inspector Initials	NOV
SERO	12/28/2005	12/28/2005	UNKNOWN	Farmington	St. Francois	Burning/Odors	Judy Aubuchon	AW	
Comments	Mr. Wampler spoke with complainant, who gave direction to the area of the burn. Mr. Wampler drove to the suspected source and spoke with Mr. Pat McDowell, the owner of McDowell Siding, and they went to the burn area and noted a pile of old stumps, soil and what appeared to be household trash remnants. Mr. McDowell stated he was trying to burn the old pile which was on the site before he located there. When the smoke got very bad, the complainant approached Mr. McDowell's son about the odors and he tried to cover the burn pile with soil. Mr. Wampler informed Mr. McDowell that no trade waste could be burned. Mr. McDowell said he had metal siding and had sold scraps and the material in the pile may have been trash people brought into the area since it is isolated in an area behind a church, his siding company, a pawn shop and a number of storage buildings. Mr. McDowell stated he would not try to burn in the future. No violations cited.								
Comp. No.	SE6018	Comp. Info	The complainant reports the burning of a large burn pile that created a terrible smoke and odor. The complainant believe it might be a business.						
SERO	12/29/2005	12/12/2005	UNKNOWN	Senath	Dunklin	Burning	Bill Foster	DRL	
Comments	Mr. Dennis Lyons, an inspector with the SERO, did not find visible evidence of burning remains. Mr. Lyons noticed the reported party might have burned brush and covered it with several loads of soil to repair the ditch bank. No further action necessary.								
Comp. No.	SE5968	Comp. Info	The complainant stated the reported party burned tires to start a fire in a ditch bank.						
SERO	12/30/2005	12/29/2005	UNKNOWN	Cuba	Crawford	Fugitive Dust	Ray Breese	AB	
Comments	Ms. Baker contacted the complainant by telephone and informed him that the county roads are exempt from the particulate matter regulation 10 CSR 10-6.170(3) Restriction of Particulate Matter to the Ambient Air Beyond the Premises of Origin.								
Comp. No.	SE6012	Comp. Info	The complainant states a truck goes by every five minutes and the dust is terrible on the county road. The complainant worked for the Department of Natural Resources for 23 years at the Meramec State Park.						
SERO	1/3/2006	12/31/2005	GARY HARRISON	Richland	Pulaski	Other	Shayne Harrell	DRL	
Comments	Mr. Lyons advised the complainant to contact the local health department.								
Comp. No.	SE6028	Comp. Info	The complainant states the rental house owned by the reported party has had an on-going sewage problem for the past four months. The tenant has been siphoning sewage out of the septic tank with a water hose onto the ground. The odor is unbearable from the stench of the sewage.						
SERO	1/5/2006	12/29/2005	GEORGIA PACIFIC	Cuba	Crawford	Fugitive Dust	Nan Dietrichs	BMV	
Comments	Mr. Bill Vossberg, an inspector with the SERO, stated the contractor has finished removing and hauling gypsum overfill from old clay pit site to a new site. The contractor was hauling clay from the new site stockpile to the old site to establish a clay cap on old site. The contractor was hooking up at the site a dust suppression system, water spraying, while inspector was at the new site.								
Comp. No.	SE6021	Comp. Info	The complainant reports dust from dump trucks and the dumping material into clay pits.

SWRO	12/23/2005	12/13/2005	NEW LIFE EVANGELISTIC CENTER	Marshfield	Webster	Burning	Webster County Health Unit	GLE	11450
Comments	Ms. Glennis Evans, an inspector with the SWRO, spoke with Mr. Zenicwicz, of the New Life Evangelistic Center (the main office is located at 1411 Locust Street, St. Louis, MO 63103, Mr. Charlie Hale). Mr. Zenicwicz stated the main office instructed him to burn unwanted clothing and shoes and he had been following their instructions. The reported party accepts clothing from individuals and then burns the clothes not fit to give away. The reported party had a burn area with a cattle panel around it. Cardboard boxes and plastic wrapping were also in the burn pile. Ms. Evans gave Mr. Zenicwicz a technical bulletin on the state's open burning regulations. Ms. Evans will send a letter to home office.								
Comp. No.	SW7841	Comp. Info	The complainant reported a Church/Donation Organization is burning clothes and other miscellaneous items.
